EDUCATION

Bachelor of Design
B.Voc (IT&ITES)
Silver Oak University Ahmedabad
(2023 - 2026)

12th Commerce
Unique School
Mar - 2023 (Pass 76%)

TECHNICAL SKILLS

- Python
- Python data analysis
- Matplotlib
- SQL
- Django
- HTML & CSS

SOFT SKILLS

- Leadership & Teamwork
- Analytical thinking
- Problem Solving
- Multitasking Abilities
- Communication Skills
- Multitasking Abilities
- Time Management

LANGUAGE

- English
- Hindi
- Gujrati

CERTIFICATIONS

- Python basics (Great-learning)
- Data Analytics (Simpli -learn)
- Data Analyst Intern (Cognifyz Technologies)

SUMMARY

Detail-oriented and analytical IT undergraduate pursuing B.Voc in Information Technology with hands-on experience in Data Analysis, Business Intelligence, and Reporting. Currently working as a Data Analyst Intern at Cognifyz Technologies. Experienced in data cleaning, exploratory data analysis (EDA), dashboard creation, and business data interpretation using Python, Pandas, Excel, SQL, and visualization tools. Strong problemsolving mindset with the ability to transform raw data into actionable business insights.

WORK EXPERIENCE

Ask Datatech — Jun-2025 – Mar-2026

Data operator (Canada & Remote)

Manual data entry (Excel, Google Sheets) , PDF/Image to Word/Excel conversion CRM or eCommerce product data entry Data cleaning & formatting Web research / data collection Typing and document management

Cognifyz Technologies — Jan-2026 To Feb -2026

Data Analyst Intern (Remote)

Performed data cleaning and preprocessing on structured datasets using Python & Pandas Conducted Exploratory Data Analysis (EDA) to identify trends, patterns, and business insights Created visualizations using Matplotlib and Seaborn for reporting Worked with Excel datasets for business performance evaluation Analyzed restaurant and real estate datasets for pricing and performance insights Generated summary reports and presented analytical findings Improved dataset quality by handling missing values, duplicates, and inconsistencies

Apaji & Amin — Dec 2023-September 2024

GST Filing & Tax Portal Handling (Ahmdedabad)

i am handle GST filing and upload them to the portal. If you need help with explanations, step-by-step guides, or troubleshooting errors in the GST portal

PROJECTS

Restaurant Data Analysis Project

Tech Stack: Python, Pandas, Matplotlib, Seaborn, Excel

Project Overview: Performed detailed analysis on restaurant dataset to extract business insights related to ratings, pricing, cuisines, and customer behavior.

Key Responsibilities: Cleaned raw dataset (missing values, duplicates, formatting issues) Analyzed restaurant ratings distribution Identified top-performing restaurants based on votes and ratings Compared price ranges across locations Visualized customer preference trends Generated business recommendations

Key Insights: Identified high-demand cuisine categories Found correlation between ratings and pricing Highlighted top revenue potential restaurant segments

PROJECTS

Real Estate Market Analysis Project

Tech Stack: Python, Jupyter Notebook, Pandas (Data Cleaning & EDA), Matplotlib, Seaborn

Project Overview: Analyzed real estate property dataset to understand pricing trends, locality comparison, and investment patterns.

Key Responsibilities: Cleaned property data (area, price, RERA status, property type) Calculated rate per square foot by locality Compared Ready-to-Move vs Under-Construction properties Evaluated RERA-approved property pricing impact Created data visualizations for price distribution

Key Insights: Identified locality with highest average property price Determined factors influencing property pricing Observed area vs price correlation trends

---

Restaurant Booking System

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Python, Django, SQLite

Project Overview: Built a Restaurant Booking web application with user authentication and table reservation system.

Key Responsibilities: Developed frontend UI, implemented backend logic, managed database, and handled booking features.

Key Insights: Gained hands-on experience in full-stack development, CRUD operations, and version control

---

ADDITIONAL PROJECTS

Power BI Dashboard Projects :

Sales & Revenue Dashboard

Customer Behavior Analysis (OLA Dataset)

SQL & Power BI :

Production Hours Analysis

Web Development:

Netflix Clone (HTML & CSS)

To-Do-List App (Django)
